

# Sixth International Imaging Genetics Conference

Beckman Center  
of the  
National Academy of  
Sciences  
UC Irvine, CA  
January 18-19, 2010

## [www.imaginggenetics.uci.edu](http://www.imaginggenetics.uci.edu)

The International Imaging Genetics Conferences bring together national and international experts in neuroimaging, genetics, data-mining, visualization and statistics. Targeting physicians and scientific researchers, this annual conference features presentations from investigators world-wide and places emphasis on facilitating in-depth discussions among the participants and presenters. Workshops on Imaging for Geneticists and Genetics for Brain Imagers are again offered the Sunday preceding the conference.

Given the known importance of both genetics and environment in brain function, and the role of neuroimaging in revealing brain dysfunction, the synergism of integrating genetics with brain imaging will fundamentally change our understanding of human brain function in disease. To fully realize the promise of this synergy, we must develop novel analytic, statistical, and visualization techniques for this new field.

The Sixth Annual International Imaging Genetics Conference will be held on January 18<sup>th</sup> and 19<sup>th</sup>, 2010 at the Beckman Center of the National Academy of Sciences in Irvine, CA. We look forward to seeing you at this exciting upcoming event.

### Registration-

#### Discounted registration fees for all students, UC Faculty and Staff!

Please register for the conference by clicking on the registration link on the menu of [www.imaginggenetics.uci.edu](http://www.imaginggenetics.uci.edu). Registration fees are listed on the conference website. You may pay by credit card or by check. Please make your check payable to: *The Regents of the University of California*. When mailing your payment, please state clearly who will be attending the conference. You may send the check to the following address:

6th International Imaging Genetics Conference  
c/o Liv McMillan  
UCI Brain Imaging Center  
Irvine Hall, Room 163  
Irvine, CA 92697-3960

### Sunday January 17<sup>th</sup>, 2010: HALF-DAY TUTORIAL WORKSHOPS

led by experts within the fields of neuroimaging and genetics. Please visit <http://www.imaginggenetics.uci.edu/workshops.htm> for more information.

**Americans with Disabilities:** The International Imaging Genetics Conference at the University of California, Irvine College of Medicine complies with the Americans with Disabilities Act. Please contact Liv McMillan at [iigc-info@uci.edu](mailto:iigc-info@uci.edu) with any questions or requests. Every reasonable effort will be made to accommodate your needs.

**California Assembly Bill 1195:** This activity is in compliance with [California Assembly Bill 1195](#) which requires continuing medical education activities with patient care components to include curriculum in the subjects of cultural and linguistic competency. For specific information regarding Bill 1195 and definitions of cultural and linguistic competency, please visit the CME web site at [www.cme.uci.edu](http://www.cme.uci.edu)

### Grants

[National Institute of Mental Health \(NIMH\)](#)

[UC Institutional Research Program in Imaging Genetics](#)

[UCI Brain Imaging Center](#)

[UCI Office of Research](#)

### For additional information, please contact:

Liv McMillan  
Sr. Research Coordinator  
University of California, Irvine  
[iigc-info@uci.edu](mailto:iigc-info@uci.edu)  
(949) 824-3770 ph.  
(949) 824-3324 fax

### Accreditation

The University of California, Irvine School of Medicine is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians.

### Designation

The University of California, Irvine School of Medicine designates this educational activity for a maximum of 10.5 AMA PRA Category 1 Credit(s)<sup>™</sup>. Physicians should only claim credit commensurate with the extent of their participation in the activity.
